DRAFT
MINUTES
BLOOMINGTON PLANNING COMMISSION
REGULAR MEETING
WEDNESDAY, AUGUST 14, 2019 4:00 P.M.
COUNCIL CHAMBERS, CITY HALL
109 EAST OLIVE STREET
BLOOMINGTON, ILLINOIS

MEMBERS PRESENT: Mr. David Stanczak (arrived at 4:11 p.m.); Mr. Kevin Suess; Mr. John Protzman; Mr. Justin Boyd; Mr. Mark Muehleck; Ms. Megan McCann; Chairperson Megan Headean.

MEMBERS ABSENT: Mr. Eric Penn; Mr. Thomas Kreiger; Mr. Tyson Mohr

OTHERS PRESENT: Ms. Katie Simpson, City Planner; Ms. Casey Weeks, Assistant City Planner; Ms. Erin Kennedy, Manager, Center for Healthy Lifestyles at OSF Health Care St. Joseph Medical Center; Ms. Cathy Coverston Anderson, Assistant Administrator, McLean County Health Department.

CALL TO ORDER: Chairperson Headean called the meeting to order at 4:01 PM. Ms. Simpson called roll. With six members present, the Commission established a quorum.

PUBLIC COMMENT: None

MINUTES: The Commission reviewed the minutes from the June 12, 2019 regular meeting. Prior to the meeting, Mr. Mohr submitted additions to the minutes which Chairperson Headean shared with the Commission. These included adding the following purposes to the discussion on the sign ordinance: 1) Align with Comp Plan; 2) Comply with SCOTUS decision on content descriptions; and 3) Ease of use. Mr. Boyd motioned to approve the minutes as corrected; Mr. Muehleck seconded the motion. The minutes were approved by voice vote 6-0.

REGULAR AGENDA:

Presentation by Cathy Coverston Anderson, Assistant Administrator, McLean County Health Department, and Erin Kennedy, Manager, Center for Healthy Lifestyles at OSF HealthCare St. Joseph Medical Center, on the 2019 McLean County Community Health Needs Assessment.

Ms. Erin Kennedy, OSF St. Joseph Medical Center, presented an overview of the Community Health Needs Assessment (CHNA), a summary of the data, and next steps for the groups. She explained the 2019 assessment was a joint effort between the Health Department, OSF St. Joseph Medical Center, Advocate BroMenn Medical Center, and Chestnut Health Systems. The hospitals are required to complete a needs assessment every three years and the Health Department is required to do an assessment every five years. She explained that 2016 was the first time the community completed a joint assessment. Following the assessment, the community put together a Community Health Improvement Plan (CHIP), which is still effective.

The 2017-2019 CHIP outlines objectives and activities for addressing the three health priorities identified in the 2016 CHNA: obesity, access to health care, and behavioral and mental health.

Ms. Kennedy shared community progress and accomplishments towards these goals. She stated that the team just published the 2019 CHNA which is available on the four entities' websites. The three priorities identified in the 2019 CHNA are healthy eating active living (HEAL), access to health care, and mental and behavioral health. Ms. Kennedy explained the data collection and outreach. Methods included online and paper surveys (about 700 usable surveys received), and secondary data analysis. Ms. Kennedy highlighted results focused on access to care and stated a lack of insurance and inability to pay for care are the major barriers for access. However, stigma and embarrassment are an additional barriers identified for accessing counseling services. More respondents identified poor mental health or a lower quality of mental health than in 2016. However, she noted that based on the survey more people are speaking to others about their mental health. More than half of the population, mostly men, are not meeting the recommended exercise guidelines. Affordability and access to facilities were identified as barriers to exercise. Daily fruit and vegetable consumption is low for McLean County. Ms. Kennedy highlighted positive county-wide data from the CHNA including higher graduation rates and income than the state average. Ms. Kennedy highlighted areas of disparities in Bloomington's 61701 zip code, Chenoa, Colfax, and Stanford.

Ms. Coverston Anderson, McLean County Health Department, provided a summary of secondary data and health disparities in McLean County. She noted although the top two causes of death for McLean County for the last four years were cancer and heart disease, the county, in comparison to the state, is still low for cancer and heart disease. She shared graphs that illustrated disparities by race. Black and African Americans, and Latinos were in the ER more than the county rate for diabetes, alcohol, asthma, and hypertension. Ms. Coverston Anderson also showed that residents from the 61701 zip code also visit the ER more than the county rate for dental problems, substance and alcohol use, asthma, adult and adolescent suicide and self-inflicted injuries, mental health, and type 2 diabetes. She stated that this level and quality of data was not available prior to 2016. The partnerships with the hospitals opened the community to better and standardized data. This partnership with multiple health organizations is rare in Illinois.

Mr. Stanczak asked if the other zip codes from Bloomington are represented in the assessment. Ms. Coverston Anderson shared the Center for Disease Control and Prevention's 500 cities initiative that maps health related information by census tract. She shared data on dental care results presented by census tract. She shared information on the Social Determinants of Health (SDOH). The places where you live, work, and play influence health outcomes. She presented a map of grocery stores, exercise facilities, and information on sidewalk quality. Next steps include completing the 2020-2022 CHIP. There are three priority action teams, one per each objective, that anyone can be on to come up with goals for the next three years. She explained the Invest Health program and the partnership with the City, Mid Central Community Action, and the health organizations.

Chairperson Headean asked what the Planning Commission can do to help meet the 3 goals identified in the CHNA. Ms. Coverston Anderson asked to be involved when there are decisions

about the built environment being made. Ms. Kennedy stated there are three priority action teams that, if interested, the Commissioners can serve on and provide guidance toward the priorities identified.

Ms. McCann commended the CHNA. She asked about a breakdown of the survey respondents. Ms. Kennedy stated that respondents 1000 completed the survey, and a number were removed to establish a confidence interval. Mr. Stanczak asked if the numbers are a representation of the community. Ms. Kennedy confirmed that between the primary and secondary data it is.

OLD BUSINESS: none.

NEW BUSINESS: Ms. Casey Weeks, Assistant Planner, introduced herself to the Commission. Ms. Simpson state that the meeting on 9/11/19 will be a joint meeting with Planning Commission and the ZBA about the sign ordinance.

ADJOURNMENT: The meeting was adjourned at 4:49 pm by voice vote, motioned by Mr. Boyd and seconded by Ms. McCann.

Respectfully submitted,
Katie Simpson
City Planner

**CITY OF BLOOMINGTON
REPORT FOR THE PLANNING
COMMISSION AUGUST 28, 2019**

CASE NUMBER:	SUBJECT PROPERTY:	TYPE:	SUBMITTED BY:
Z-07-19	1815 N. Towanda Barnes Road Near the northeast Intersection of Towanda Barnes and General Electric Road	Rezone	Planning Staff
PETITIONER’S REQUEST:	Rezone the above referenced properties from B-1, General Commercial District to A, Agricultural.		
Staff finds that the petitions do not meet the Zoning Ordinance’s map amendment guidelines for the A Agricultural.			

STAFF RECOMMENDATION: Approval

Staff recommends the Planning Commission pass the following motions recommending:

- A. That Planning Commission **recommend denial** of the rezoning of 1815 N. Towanda Barnes Road from B-1 to A, case Z-07-19.

Figure 1 The property boundaries are marked with a blue line.

Figure 2 The location of the property is marked with an oval showing the existing zoning nearby.

NOTICE

The application has been filed in conformance with applicable procedural requirements and public notice was published in *The Pantagraph* on August 12, 2019.

Analysis

This report is based on the following documents, which are on file with the Community Development Department:

1. Petition for Zoning Map Amendment
2. Aerial photographs
3. Zoning Map
4. Site visit

PROJECT DESCRIPTION

Background: The subject property is located on the eastern edge of the City near the intersection of N. Towanda Barnes Road and General Electric Road. The property is currently used for crops and is zoned B-1 General Commercial District. The previous zoning was agricultural, but for future use, it is appropriate for B-1 General Commercial District with its location on a major corridor and intersection. Zoning was changed from agricultural to B-1 when the property was annexed in 2008 (Ordinance #2008-23). The property is approximately 212,572.8 square feet located at the intersection of a two minor arterial roads. The traffic counts taken from the IDOT map shows 7,100 vehicles traveling daily along General Electric and 7,450 vehicles traveling daily on N. Towanda Barnes Road at the intersection of the two corridors. The property is also accessible from the Constitution Trail.

Aside from having streets and trail access, the subject property also has access to a 16-inch public water main and an 18-inch public storm sewer located on the west side of Towanda Barnes Road. Public sanitary sewer was extended to the subject property from the property north in 2017. The subject property has access to all utilities.

The property is adjacent to a senior living facility, developed in 2018, and just south of the Eagle View subdivision. Other commercial property exists across Towanda Barnes Road including a hotel, day care center, small strip center, and a bank. New townhomes are proposed on Woodbine Road and residential developments exist within a quarter mile of the subject property. The trend in development for the area is towards business, residential and office. Some adjacent property remains unincorporated and is used as farm land.

Purpose and Intent

B-1 General Commercial District

The intent of this B-1 Commercial District is to facilitate the development of community and regional commercial areas. Customers in this district will generally use a motor vehicle to reach a desired establishment. The development contemplated in this district has such distinguishing characteristics as unified site planning and development that promotes a safe and conducive atmosphere for large volumes of shoppers; site accessibility such that the high volumes of traffic generated create minimal congestion and adverse impact upon surrounding land use; and unified

Agenda Items: 5A. Z-07-19 Rezoning from B-1 to A
architectural treatment of buildings rather than an assemblage of separate, conflicting store and structural types.

This district contemplates uses ranging from offices, restaurants and retail to trade and construction services, personal and professional services, hotels, and other entertainment and hospitality uses, and utilities like commercial solar, and private solar and wind facilities. Uses like a truck stop, truck wash, vehicle services, and mini warehouse storage are only permitted with a special use permit.

New development in this district requires a legislative site plan review and approval by City Council. The purpose of the review is to ensure the new development is compatible in mass, scale, and use with surrounding development and will not negatively impact adjacent property owners.

A-Agricultural District.

The intent of this A-Agricultural District is to govern the use of land, buildings, and structures within areas of the City where soil, topographic, and other conditions are best suited for the pursuit of agriculture or where essential community facilities or utilities do not yet or are not reasonably expected to serve the property. These regulations are further intended to provide for the protection and conservation of natural resources, to prevent or minimize conflicts between agriculture and non-agriculture land uses; act as a holding zone for annexed land prior to timely development; and to facilitate orderly and efficient urban development by preventing a scattered and indiscriminate pattern of urban growth.

This district primarily contemplates agricultural uses and allows single family homes, commercial solar, and riding stables. Some uses like churches, veterinary clinics and commercial wind are allowed with a special use permit.

Development in the agriculture district does not require a legislative site plan review.

Project Description:

The intent of the current zoning district, B-1 General Commercial District, is to allow for the establishment of businesses to serve the residents on the eastern side of the city. The property is on the City's eastern edge near the northeast intersection of N. Towanda Barnes Road and General Electric Road each running north-south and east-west providing a node of development along the corridors. The B-1 designation will allow the property to be developed providing amenities to the residents nearby with easy access to the intersection. The land's current use as agricultural reflects the previous zoning, but for the future B-1 zoning is more appropriate to meet the needs of the residents. Additionally, it is typical to farm vacant land in the city without needing to change the property's zoning to the A-Agricultural District. Although the Permitted use table for B-1 was amended in March 2019, and no longer lists Agriculture as a principal use in the B-1 district, the property has been farmed, and can continue to be farmed until redeveloped. No zoning amendment is necessary as a nonconforming use may continue to exist. Furthermore, the business zoning encourages and facilitates the redevelopment of the land, whereas, amending the zoning to Agriculture creates an additional barrier for redevelopment.

Link to Comprehensive Plan:

The Comprehensive Plan's goals for economic development support mixed use developments and exploring land opportunities for other retail and commercial uses. Goal ED-4.2 proposed

Agenda Items: 5A. Z-07-19 Rezoning from B-1 to A finding retail locations within residential areas within appropriate densities. ED-4.3 proposes to find buffer areas between residential and industrial uses to continue to promote less intense businesses and opportunity for economic development. The Infill redevelopment map identifies this tract as a Tier 1 development priority since it is located adjacent to city utilities and already annexed into the corporate limits. The Future Land Use map shows the area as regional commercial.

FINDINGS OF FACT

The Zoning Ordinance has “*Zoning Map Amendment Guidelines*” and by states, “*In making its legislative determination to zone or rezone property to a A Agricultural zoning classification, the Planning Commission and City Council may apply the following guidelines to the proposal under consideration:*”

1. *The suitability of the subject property for uses authorized by the existing zoning;* The trend of development for the area is towards business. The subject property has access to utilities and is located at the intersection of two minor arterial roads. **The standard is met.**
2. *The length of time the property has remained vacant as zoned considered in the context of land development in the area;* The land was annexed and rezoned to B-1 in 2008. A development agreement between the property owner to the north, the City, and the subject property owner discussed extension of roads, sewer and water. That agreement was dissolved in 2017. **The standard is not met.**
3. *The suitability of the subject property for uses authorized by the proposed zoning;* The intention of the agricultural district is to promote a viable use of land that does not have access to public infrastructure. While the subject property could be used for agriculture, it has access to infrastructure and is capable of a higher and better use that will benefit the surrounding area. **The standard is not met.**
4. *The existing land uses and zoning of nearby property;* The existing zoning around the intersection is commercial. There is a landscaping business to the west across Towanda Barnes Road that that is zoned commercial and unincorporated. A bank and hotel are located on the southwest corner of the intersection. The trend in development for the intersection is towards commercial, the proposed zoning does not match that trend and could be incompatible with surrounding developments. **The standard is not met.**
5. *Relative gain or hardship to the public as contrasted and compared to the hardship or gain of the individual property owner resulting from the approval or denial of the zoning amendment application;* The existing zoning encourages redevelopment of vacant land, and redevelopment of a Tier 1 infill redevelopment priority. The intent is to provide commercial resources to residents on the eastern side of the City, so they do not have to drive very far for amenities. Amending the zoning to Agriculture could deprive residents and the City of a potential redevelopment opportunity, and would only benefit the property owner. **The standard is not met.**
6. *The extent to which adequate streets are connected to the arterial street system and are available or can be reasonable supplied to serve the uses permitted in the proposed zoning classification;* The subject property has road frontage on N. Towanda Barnes Road near the intersection of General Electric Road.. These roads are four lane corridors

Agenda Items: 5A. Z-07-19 Rezoning from B-1 to A heavily trafficked. The agricultural district is contemplated in areas that are less traveled and less commercial. **The standard is not met.**

7. *The extent to which the proposed amendment is consistent with the need to minimize flood damage and the development of the subject property for the uses permitted in the proposed zoning classification will not have a substantial detrimental effect on the drainage patterns in the area;* The Agricultural District contemplates uses that do not require impervious surfaces. The Business District requires new development to provide to comply with storm water management requirements. **The standard is met.**
8. *The extent to which adequate services (including but not limited to fire and police protection, schools, water supply, and sewage disposal facilities) are available or can be reasonable supplied to serve the uses permitted in the proposed zoning classification;* Existing water mains and sanitary sewer are available for connection. Existing residential properties and the assisted living facility north of the lot already establish the need for police and fire protection. **The standard is not met.**
9. *The extent to which the proposed amendment is consistent with the public interest, giving due consideration for the purpose and intent of this Code as set forth in 17-1 herein;* Existing zoning provides orderly planning centered around a transportation node allowing an accessible commercial site along a heavily trafficked intersection. Amending the zoning would be contrary to the public interest given the intention of the Code. **The standard is not met.**
10. *The extent to which property values are diminished by the particular zoning restriction;* Agricultural zoning designation would make this property less desirable and decrease its value. **The standard is not met.**
11. *The extent to which the destruction of property values promotes the health, safety, morals, or general welfare of the public;* Amending the zoning can negatively impact the property values of nearby residents since surrounding compatible investment may not occur. **The standard is not met.**
12. *Whether a comprehensive plan for land use and development exists, and whether the ordinance is in harmony with it;* This lot lies in Tier 1 of development priorities on Land Use Priorities in the Comprehensive Plan. Tier 1 includes vacant and underutilized land for infill development or redevelopment with the City, unincorporated land surrounded by incorporated areas, and areas platted for future development of existing subdivisions but not yet built out to completion. **The standard is not met.**
13. *And whether the City needs the proposed use;* Commercial use, rather than agricultural uses, will generate additional tax revenue on the eastern edge of the City which consists of many single-family homes and requires additional resources such as road maintenance revenue, and educational services. **The standard is not met.**

STAFF RECOMMENDATION:

Staff recommends the Planning Commission pass the following motions recommending: That Planning Commission **recommend denial** the rezoning of **1815 N. Towanda Barnes Road** from B-1 to A, case Z-07-19.

Respectfully submitted,

Community Development Staff

DRAFT

PETITION FOR ZONING MAP AMENDMENT

State of Illinois)
) ss.
County of McLean)

TO: THE HONORABLE MAYOR AND CITY COUNCIL OF THE CITY OF BLOOMINGTON, MC LEAN COUNTY, ILLINOIS

NOW COMES Rewerts, Zimmerman & Rewerts, Inc., an Illinois corproation, hereinafter referred to as your petitioner(s), respectfully representing and requesting as follows:

1. That your petitioner(s) is (are) the owner(s) of the freehold or lesser estate therein of the premises hereinafter legally described in Exhibit A, which is attached hereto and made a part hereof by this reference, or is (are) a mortgagee or vendee in possession, assignee of rents, receiver, executor (executrix), trustee, lessee or other person, firm or corporation or the duly authorized agents of any of the above persons having proprietary interest in said premises;
2. That said premises legally described in Exhibit "A" presently has a zoning classification of B-1 (Highway Business District), under the provisions of Chapter 44 of the Bloomington City Code, 1960;
3. That the present zoning on said premises is inappropriate due to error in original zoning, technological changes altering the impact or effect of the existing land uses, or the area in question having changed such that said present zoning is no longer contributing to the public welfare;
4. That your petitioner(s) hereby request that the Official Zoning Map of the City of Bloomington, McLean County, Illinois be amended to reclassify said premises into the A (Agricultural) zoning district classification;
5. That said requested zoning classification is more compatible with existing uses and/or zoning of adjacent property than the present zoning of said premises; and
6. That said requested zoning classification is more suitable for said premises and the benefits realized by the general public in approving this petition will exceed the hardships imposed on your petitioner(s) by the present zoning of said premises.

WHEREFORE, your petitioner(s) respectfully pray(s) that the Official Zoning Map of the City of Bloomington, McLean County, Illinois be amended by changing the zoning classification of the above-described premises from B-1 (Highway Business District) to A (Agricultural).

Respectfully submitted,
Rewerts, Zimmerman & Rewerts, Inc., an
Illinois corporation

PIN: Part of 15-29-356-005

Petition for Zoning Map Amendment: Further Information

- (a) The suitability of the subject property for uses authorized by the existing zoning;

Based upon the size and location of the parcel, it is unlikely to be utilized for B-1 purposes as constituted.

- (b) The length of time the property has remained vacant as zoned considered in the context of land development in the area;

The property has been zoned B-1 since 2005, which occurred during annexation of the property to the City of Bloomington. The property has never been developed for B-1 purposes, and has remained unimproved land utilized for agricultural purposes.

- (c) The suitability of the subject property for uses authorized by the proposed zoning;

This property has never been improved, and continues to be utilized for agricultural purposes, namely, planting crops.

- (d) The existing land uses and zoning of nearby property;

The property to the north is zoned B-1 (General Commercial District); the property to the west is zoned C (Commercial); the properties to the south and east are zoned A (Agriculture).

- (e) Relative gain or hardship to the public as contrasted and compared to the hardship or gain of the individual property owner resulting from the approval or denial of the zoning amendment application;

There is no hardship to the public in rezoning the property from B-1 (General Commercial District) to A (Agriculture). The property has never been used for commercial purposes and continues to be utilized for agricultural purposes. Allowable uses in an agricultural district are more restricted than those in the B-1 zoning classification, providing protection to the general public.

- (f) The extent to which adequate streets are connected to the arterial street system and are available or can be reasonably supplied to serve the uses permitted in the proposed zoning classification;

The current access is appropriate for the current use and the requested zoning classification.

- (g) The extent to which the proposed amendment is inconsistent with the need to minimize flood damage and that the development of the subject property for the uses permitted in the proposed zoning classification will not have a substantial detrimental effect on the drainage patterns in the area;

The proposed amendment is not inconsistent with the need to minimize flood damage. In fact, maintaining the current property for agricultural purposes avoids erosion and promotes more efficient water drainage.

- (h) The extent to which adequate services (including but not limited to fire and police protection, schools, water supply, and sewage disposal facilities) are available or can be reasonably supplied to serve the uses permitted in the proposed zoning classification;

No services are required for the intended zoning classification, and present use. In fact, the permitted zoning classification requires additional services not currently supplied to the property.

- (i) The extent to which the proposed amendment is consistent with the public interest, giving due consideration for the purpose and intent of this Code as set forth in 17-1 herein;

The proposed amendment is consistent with the public interest, and constitutes a more restrictive use of the property.

- (j) The extent to which property values are diminished by the particular zoning restriction;

This consideration is neutral as neither the current zoning restriction, nor the proposed zoning restriction, negatively impact property values. Though, as presently zoned, the value of this property is overstated and detrimental to the Petitioner.

- (k) The extent to which the destruction of property values promotes the health, safety, morals, or general welfare of the public;

There is no anticipated destruction of property values.

- (l) Whether a comprehensive plan for land use and development exists, and whether the ordinance is in harmony with it;

A comprehensive plan for land use and development exists for the City of Bloomington. The proposed zoning map amendment is not inconsistent with that plan.

- (m) Whether the City needs the proposed use.

Agriculture benefits the community and provides a more conservative zoning classification.

Chapter 44. Zoning

Article V. Business District Regulations

§ 44-502. [Ch. 44, 5-2] Permitted uses.

Refer to Article **XVII**, Definitions, for clarity on the uses listed.

A. Land uses. Uses are allowed in the Business Districts in accordance with Table 502A. The following key is to be used in conjunction with the Use Table.

- (1) Permitted uses. A "P" indicates that a use is considered permitted within that district as of right subject to compliance with all other requirements of this Code.
- (2) Special uses. An "S" indicates that a use is permitted, though its approval requires review by the City Council as required in Article **XVII**, subject to compliance with all other requirements of this Code and contingent upon conditions of approval which may be imposed by the City.
- (3) Uses not permitted. A blank space or the absence of the use from the table indicates that the use is not permitted within that district.
- (4) Use regulations. Many allowed uses, whether permitted by right or as a Special Use, are subject to compliance with Article **XVII**.
- (5) Unlisted uses. If an application is submitted for a use not listed, the Zoning Enforcement Officer shall make a determination as to the proper zoning district and use classification for the new or unlisted use. If no permitted or special use is similar in character, intensity, and operations to that of the proposed use, a text amendment may be initiated pursuant to Article **XVII** to establish parameters for permitting such use within the City of Bloomington.

B. Allowed Uses Table.

IDE TRENDS

Department of Community Development
115 E Washington St, Ste 201
Bloomington IL 61701

August 12, 2019

Dear Property Owner or Resident:

The Planning Commission of the City of Bloomington, Illinois, will hold a public hearing on August 28, 2019 at 4 pm in the Council Chambers, 109 E. Olive Street, Bloomington, Illinois to hear testimony for a petition submitted by Rewerts, Zimmerman & Rewerts, Inc. to rezone property at 1815 N Towanda Barnes Rd ADJ to A Agricultural District.

REQUEST

The petitioner is requesting to rezone property at 1815 N Towanda Barnes Rd ADJ to A Agricultural District.

LEGAL DESCRIPTION: RESUB EAGLE VIEW SOUTH COMMERCIAL SUB OL B 4.887 ACRES

You are receiving this courtesy notification since you own property within a 500 foot radius of the land described above (refer to attached map). All interested persons may present their views upon said petition, or ask questions related to the petitioner's request at the scheduled public hearing. Copies of the submitted petition are available for public review at the Department of Community Development, 115 E. Washington St. Bloomington, IL 61701. Communications in writing in relation to the petition may be sent to the Department of Community Development prior to the hearing, or presented at such hearing.

In compliance with the Americans with Disabilities Act and other applicable federal and state laws, the hearing will be accessible to individuals with disabilities. Persons requiring auxiliary aids and services should contact the City Clerk at (309) 434-2240, preferably no later than five days before the hearing. Please note that cases are sometimes continued or postponed for various reasons (i.e lack of quorum, additional time needed, etc.). The date and circumstance of the continued or postponed hearing will be announced at the regularly scheduled meeting.

The agenda and packet for the hearing will be available prior to the hearing on the City of Bloomington website at www.cityblm.org. If you desire more information regarding the proposed petition or have any questions you may email me at ksimpson@cityblm.org or call me at (309) 434-2341.

Sincerely,

A handwritten signature in black ink, appearing to read "Katie", with a stylized flourish extending to the right.

Katie Simpson, City Planner
